1G05PL

USB Rechargeable Pen Light

EDC BY KBS

OPERATING INSTRUCTIONS

Thank you for purchasing the Bright Star 1G05PL USB Rechargeable Pen Light!

STOP

Read all warnings and instructions thoroughly before first use

Unscrew tail cap and remove battery insulator before first use

Operating Instructions

Proper care of your new light is essential to get a long dependable life of service. Please take some time to review this instruction sheet before using your new flashlight.

The flashlight comes with a rechargeable Li-Ion battery. The Li-Ion battery provides up to 4 hours of continuous runtime with a full charge.

CHARGING INSTRUCTIONS:

The rechargeable battery inside the 1G05PL USB Rechargeable Pen Light is designed to be charged outside the flashlight. Removing the Li-Ion battery from the light is necessary. Remove the cell from the light and simply insert a USB-C cable into the designated charge port.

Once the cell is plugged in, the charging indicator on the top of the cell will turn RED, indicating the unit is charging. To get the longest runtime out of your 1G05PL USB Rechargeable Pen Light, leave the cell on the charger until the charging indicator turns green.

Rear Switch

1st Press: ON/HIGH
2nd Press: OFF
3rd Press: ON/MED
4th Press: OFF
5th Press: ON/STROBE
6th Press: OFF

Safety:

- Flashlight will generate heat while working.
- Do not clean the flashlight with harsh chemicals, use only mild detergent and water.
- Do not dispose of the Li-Ion battery pack in fire, the battery may cause serious injuries
- Please refer to local ordinances regarding Li-Ion battery disposal
- Use of this product for any other purpose than a flashlight is prohibited.

Warranty: This product is subject to a 1-year warranty from date of purchase for any manufacturing defects. Proof of purchase may be required.
