

# Industrial Welding Racks with Power Distribution 4 and 6-Pack Racks

## SPECIFICATIONS

**"Experience Increased Utilization and Convenience with 10kva of on-board Power Distribution to power drills, grinders and other electric tools"**

### POWER DISTRIBUTION

- On-board power distribution provides power for tools nearer to the work, increasing versatility and utilization.
- Modular, easy to configure and service.
- Meets Nema-3R and UL 50 Specifications

### WELDING RACK FRAME

- Shelves predrilled for Lincoln Flextec 350x & Miller XMT350 Units
- Cable routing system to protect power cabling during transport
- Robust Grounding Block mounted under bottom of shelf for increased protection
- Sloped Roof for Rain- Runoff
- Connect (2) 4-Packs to configure an 8-pack
- Designed and constructed to be the most durable welding rack in the industry

# Industrial Welding Racks with Power Distribution 4 and 6-Pack Racks

## SPECIFICATIONS

### Specifications:

#### PRIMARY SIDE

Dual 600/480 volt input to lugs

600 volt input to lugs

480 volt input to lugs

#### 4 PACK PART#

WR4PD10K06-480/600

WR4PD10K06-600

WR4PD10K06-480

#### 6 PACK PART#

WR6PD10K06-480/600

WR6PD10K06-600

WR6PD10K06-480

#### SECONDARY SIDE, 4 PACK

6 x 20A 120V NEMA 5-20 Receptacles

6 x 20A 1P GFCI Protected Circuit Breakers

4 x Welder Circuit Breakers

Terminal Block with 4 Welder Connections

#### SECONDARY SIDE, 6 PACK

6 x 20A 120V NEMA 5-20 Receptacles

6 x 20A 1P GFCI Protected Circuit Breakers

6 x Welder Circuit Breakers

Terminal Block with 6 Welder Connections
